

TABLE OF CONTENTS

Paper No.

1.	TRANSPORTATION AND PRE-SLAUGHTER STRESS OF FARM ANIMALS AND THE QUALITY OF THE MEAT PRODUCED	
1.1	Developments in the pre-slaughter treatment of slaughter animals PATRICIA A.BARTON-GADE	1
1.2	Aptitude de divers types génétiques de porcs à la fabrication du jambon sec P.SELLIER, G.MONIN, A.TALMANT	7
1.3	Influence of halothane positive pigs on technological yield of cooked ham MARKKU HONKAVAARA	11
1.4	Halothane sensitivity and quality of the carcass and meat of the German Landrace pigs TS.YABLANSKY, Y.SYAROV, I.VENEV, V.DRBOKHLAV, P.MISHEV	14
1.5	Influence of the pre-slaughter conditions of feeding and rest of piglets on the live weight, slaughter and commercial cost of the carcass M.MACHEV, ST.IVANOV	18
1.6	Research on stress resistance of young pigs ST.STEFANOVA, Y.DIMOV, A.STOYKOV	22
1.7	Meat quality of young male cattle according to the duration of the pre-slaughter rest D.KATSAROV, N.DIMITROVA, I.KALOYANOV, G.MONOV, E.MARKOV, A.GROZDANOV, N.DILOVA, R.PETKOV, S.RIZVANOV	26

1.8	Comparative studies on the meat qualities of pigs, slaughtered without and after pre-slaughter rest in accordance with the season L.IVANOV, IV.KALOYANOV, G.MONOV, M.RADEVA, A.GROZDANOV, D.KATSAROV, N.DILOVA, ST.RIZVANOV	31
1.9	The effects of limited diet and fasting prior to slaughter on physical and chemical properties of meat from Awassi lambs N.H.RASHID, H.H.SALIH	35
1.10	Rearing environment affects a pig's reaction to handling TEMPLE GRANDIN, STANLEY E.CURTIS	40
2.	MEAT PRODUCTION: MECHANIZATION AND ROBOTIZATION; SANITATION; AND MEAT QUALITY	
2.1	Meat production, mechanization and robotization, sanitation and meat quality OLE SIGMUND BRAATHEN	44
2.2	Influence of cattle categories on the output of endocrine glands UMBERTO SARDUY, LAUDELINA RODRIGES, MARTHA LUGO, ANGELA MIRANDA	*
2.3	Results in the partially scalded pig slaughtering technology J.FOLTÁNYI, I.SIPOS	*
2.4	Beef quality traits in different muscles of growing-finishing bulls slaughtered at various ages E.SZÜCS, A.CSIBA, A.NAGY, I.ÁCS, K.UGRY	49
2.5	Improvements in the technology and equipment for edible blood collection N.M.KREKHOV, M.F.KHORJKOVA, E.S.BLYAKHER, S.I.BULIKOV	56
2.6	Hygienic safety of poultry meat as affected by the technological processing V.P.PANOV	58
2.7	Utilization of inedible slaughter wastes as a source of perfect feeding protein in pig and poultry rations A.I.SNITSAR, L.I.STEKOLNIKOV, A.A.BELOUSOV, N.Yu. SKLYAROVA, V.I.ROSHTCHUPKIN, R.I.ISKENDEROV	60
2.8	A rational procedure of preslaughter animal immobilization with pulse direct current E.N.MUSHINSKY, A.F.SAVTCHENKO, N.N.MIZERETSKY, I.GLAVINKA	64
2.9	Ergebnisse und Erfahrungen beim mechanischen Nachentfetten von Schwarten A.BAIER, E.HAACK	66
2.10	Productivity and carcass quality of pigs fed slaughterhouse residuum T.OSHIDA, R.SAKATA, T.FUKUYASU	*
2.11	Meat quality of pigs fed slaughterhouse residuum R.SAKATA, T.OSHIDA, R.KOZAKI	*

2.12	The effect of feeding single cell protein (SCP) on some physiological aspects in broilers D.H.AL-HASSANI, M.J.AL-SHADEEDI, F.F.EZZAT, G.A.AL-KAISSY, S.A.NAJI	69
2.13	Influence of antemortem diet on extra low voltage electrical stimulation in lambs F.JIMENEZ-COLMENERO, A.MORAL, J.CARBALLO, R.ENAMORADO, E.GARCIA-MATAMOROS	73
2.14	Effect of extra low voltage electrical stimulation on beef sternocleidomastoid muscle (trial using two stimulators with different electrical parameters) E.GARCIA-MATAMOROS, A.MORAL, F.JIMENEZ-COLMENERO, J.C. NIETO, J.CARBALLO	77
2.15	Qualität von Lammfleisch verschiedener Populationen P.FREUDENREICH	80
2.16	Le dépouillage des porcs de fabrication en abattoir industriel: Une innovation rationnelle B.HOULIER, A.MACQUET	*
2.17	The effects of captive bolt stunning on brain function in cattle and sheep C.C.DALY, N.G.GREGORY, S.B.WOTTON	85
2.18	Poultry slaughtering procedures N.G.GREGORY, S.B.WOTTON	87
2.19	Influence of electrical stimulation on structural-mechanical properties of beef S.DANCHEV, D.TSANKOV, A.KOSTOV	92
2.20	Defects on fresh hide obtained during meat production and preservation IVAN BOTEV	*
2.21	Intensification of pork production by using effective additives L.TCHESHMEDJIEVA, A.KRASTEV	94
2.22	Automatisches System für Nasstoilet der Schlachtkörper von Rinder ALEXANDER MLADENOV, ATANAS POPOV, ANGEL IWANOV	96
2.23	Studies on the technological properties of meat from fattened geese K.KOSTADINOV, ST.DANCHEV, K.VASILEV	99
3.	TECHNOLOGIES OF THE REFRIGERATION TREATMENT AND STORAGE OF MEAT; COOLER DESIGN AND MECHANIZATION; ENERGY CONSERVATION	
3.1	Computer-based design of refrigerating systems for meat plants with flow meat processing V.P.ONISHCHENKO, I.G.CHUMAK	102
3.2	Investigation of the influence of hydroaerosol chilling on physico-chemical and microbiological characteristics of cooked sausages O.N.KALINICHENKO, M.A.DIBIRASULAYEV, G.A.BALANDINA, E.I. MOISEYEVA, G.Z.YAKUBOV	105

3.3	Intensification of frigorific treatment with application of inter-chamber regeneration of moisture A.F.KRYUKOV, V.V.BURETS, V.V.POLUNCHENKO, A.E.GORBACH, E.YA.FAINZILBERG, V.M.KOLESNIKOV	109
3.4	Factors affecting the chilling rate of beef sides A.E.WOOTTON	*
3.5	Influence of ageing freezing rate and length of storage on quality of beef LAURO MÜLLER	113
3.6	On the indirect block freezing of warm meat V.DIMITROV, TS.TSVETKOV, A.GROZDANOV	116
3.7	Influence of freezing and frozen storage on the structural and mechanical properties of chicken meat MONI M.LALOV, MOHAMED A.M.SOLEMAN	124
3.8	Influence of freezing and frozen storage on the hydrophilic properties of chicken meat MOHAMED A.M.SOLEMAN, MONI M.LALOV	127
3.9	Industrial tests of a conveyor freezer for meat and meat packings in a dynamic disperse medium ST.DICHEV, BR.BRATANOV	130
4.	MUSCLE TISSUE BIOLOGY: PHYSIOLOGY OF POST-MORTEM PROCESSES IN THE MUSCLE; MEAT AND MUSCLE TISSUE BIOCHEMISTRY; MEAT MORPHOLOGY AND HISTOLOGY; CHEMICAL COMPOSITION OF MEAT; ANALYTICAL CHEMISTRY METHODS FOR THE EVALUATION OF MEAT AND MEAT PRODUCTS	134
4.1	Quality of quick frozen chicken meat products N.MITROFANOV, V.KRAYNYAYA, N.BALCHUNAS, I.SAFRONOVA	143
4.2	Food and biological value and medical-biological characteristics of the preserved baby food, made of mechanically boned chicken meat E.STEFANOVA, V.KHLEBNIKOV, L.KHOVAEVA	146
4.3	A study on the food and biological value of low-energy ready-to-cook meat products A.V.A.V.USTINOVA, E.G.BOBRIKOVA, A.A.BELOUSOV, N.E.BELYAKINA, V.I.EDELMAN, L.I.SOLOVYOVA, K.S.LADODO, B.P.SUKHANOV	148
4.4	The mechanism of ultrasonic vibration effect on rennin extraction I.A.ROGOV, R.A.KHROMOVA, A.A.BELOUSOV, G.E.LIMONOV, L.I.IZOTOVA, B.A.KLIMOVA	152
4.5	The morphological composition of buffalo carcasses as an indicator of the optimum slaughter time N.N.SHUKYUROV, G.L.SOLNTSEVA	155
4.6	Methods of quantitative evaluation and modelling of raw meat and finished products amino acid balance N.N.LIPATOV	158
4.7	A study on the lipid oxidation during frozen raw sausage storage G.L.SOLNTSEVA, N.V.ROMANOVA	162

4.8	The chemical composition and vitamin content in the meat of arabian camels L.F.KARMYSHOVA, V.P.ILYUKHINA, G.A.SAFRONOVA, G.I.EDELMAN, M.I.BABURINA, L.F.KANYKINA	164
4.9	The morphological and chemical compositions of mutton cuts N.N.SHISHKINA, L.F.KANYKINA, T.I.YURTCHENKO	167
4.10	A physico-chemical and sanitary-hygienic study on the edible protein prepared from non-traditional animal materials V.I.PIULSKAYA, L.I.STEKOLNIKOV, V.Z.KRAKOVA, G.P. RATCHAITENE	170
4.11	The determination of the collagen hydrothermal resistance of beef gullet meat tissue I.GÓRSKA, T.SZMAŃKO, G.KRASNOWSKA	172
4.12	The proteins of squid meat ILONA KOŁODZIEJSKA	175
4.13	Effect of ionic strength on extractibility and electrophoretic picture of proteins in a chicken broiler muscle tissue TERESA SMOLIŃSKA, WIEŚŁAW KOPEĆ	178
4.14	Rapid glycolysis test for detection of DC beef in slaughter line M.VADA-KOVÁCS	182
4.15	Detection of PSE hams by pH ₁ and dielectric loss M.VADA-KOVÁCS, J.SEBESTYÉN, A.CSIBA	186
4.16	A new biochemical method on prediction of non-subject to changes pork V.DUSHANEK, R.LASTIT	*
4.17	Physical and chemical quality indexes of cuban pork OCTAVIO VENEGAS, GUSTAVO ANDÚJAR, CECILIA CARRILLO	189
4.18	Schnellmethode für die Bestimmung des Wasser-, Kochsalz- und Eiweissgehaltes von Blutplasma W.HÖPENER, H.KRÜGER, R.SELLNER	193
4.19	The composition of hog intramuscular lipids LJUBICA BASTIĆ, VESELINKA DJORDJEVIĆ, G.REMBERG, M. BASTIĆ, D.SKALA, J.JOVANCVIĆ	197
4.20	Studies of some chemical and physical properties of mutton and buffalo's meat KHAIRY M.IBRAHIM, AMANI A.EL-DASHLOUTY	844
4.21	Estimation of Z-line destruction during muscle reservation A.T.RANTSIOS	203
4.22	Composition of the lipid fractions of m.Long.dorsi in pigs and beef cattle A.L.PRABUCKI, DANIELE PERRET, R.J.KUNZ	*
4.23	Fettsäuren im Schweinefett. I. Charakterisierung des Fettsäuremusters bei den schweizerischen Schweinerassen A.L.PRABUCKI, D.SCHWÖRER, J.K.BLUM	208
4.24	Fettsäuren im Schweinefett. II. Beziehungen zwischen den	

	Fettsäuren im Schweinefett sowie den Mast- und Schlachtleistungsmerkmalen	
	D.SCHWÖRER, J.K.BLUM, A.L.PRABUCKI	212
4.25	Connective tissue: Content and arrangement of perimysium in bovine muscles with special emphasis on elastin	
	GEIR K.TOTLAND, DAGFINN ULRIKSEN, ERIK SLINDE	216
4.26	Recent advances in the study of myosin and myofibril gel formation	
	K.FRETHEIM, B.EGELANDSDAL, O.HARBITZ, K.SAMEJIMA	219
4.27	Protein hydrophobicity of extracts of heat treated pork	
	C.K.WILKINS	223
4.28	Untersuchung zur Analyse tierischer Lebensmittel mittels Irreflexionsanalyse	
	M.ALTMANN, K.MIFEK, R.FRÜHLING	226
4.29	Relation entre les caractères du périnysium et la texture de la viande de boeuf	
	B.L.DUMONT	231
4.30	Variation de la teneur en fer héminique de la viande de boeuf	
	J.BOUSSET, B.L.DUMONT	235
4.31	Chemical and technological studies on beef meat	
	SAMIR EL-KADY, ABDEL-SALAM FAHMY	*
4.32	Antioxidative properties of alpha-tocopherol in cooked pork	
	E.D.ABERLE, K.WHANG, M.D.JUDJE, I.C.PENG	239
4.33	Evolutions morphologique, biochimique et contractile du muscle Intercostales externi de porcs normaux et sensibles à l'halothane au cours de la croissance	
	GENEVIEVE KOZAK-REISS, J.P.GASCARD, G.MONIN, A.LACOURT, PAULETTE LACOURT, A.TALMANT, A.MEJENES-QUIJANO	243
4.34	A study on detection of lard in canned mutton	
	HASSAN NOUR EL-DIN, A.SOLIMAN, F.ASHOUR, A.EL-DASHLOUTY, A.BAYOUMY	*
4.35	Amino acid composition of seven egyptian beef and buffalo by-products	
	M.KAMAL E.YOUSSEF, M.K.FARAG, A.A.FOAD, S.T.MORSI	247
4.36	Studies on the quality of meat from pigs, fattened with feed mixtures with an addition of pigskin protein bouillon	
	G.MONOV, I.YONOVA, R.PETKOV, A.DJUROV, P.DILOV	251
4.37	Utilization of the impedance-metric method for evaluating meat emulsions stability	
	N.RAEV, K.VASSILEV	255
4.38	Influence of defrosting on protein profile of beef	
	MILO MILEV	259
4.39	Relationship between the level of some biochemical and hematological parameters in the blood and meat production in cattle and sheep	
	TSVETAN MAKAVEEV	263
4.40	Relationship between polymorphic loci and activity of some enzymes and meat production in swine	
	TSVETAN MAKAVEEV	267

- 4.41 Study on both the colour and metabolite type of fibres in muscles of lambs slaughtered at different age 271
A.PINKAS, P.MARINOVA
- 4.42 Influence of breed and halothane sensitivity on some traits of pig muscles 274
A.PINKAS, P.MARINOVA, A.STOYKOV, G.MONIN
- 4.43 Comparaison de la composition des carcasses et de quelques qualités de viande de buffles et de bovins 278
P.MARINOVA, M.RENERRE, A.PINKAS, O.POLIHROV, A.LACOURT
- 4.44 Studies on the chemical composition of deer meat 282
R.PETKOV
- 4.45 Growth, development and structural characteristics of farm animals' skeletal muscles 286
YORDAN PETROV
- 4.46 A modified spectrophotometric method for the determination of available methionine in meat and meat products 290
I.ZAKHARIEV, KH.YUROUKOV
- 4.47 Investigations on the nutritive value of proteins depending on meat collagen content 294
I.ZAKHARIEV, I.BUKLOVA, D.BAIKOVA
- 4.48 Steroid receptors and the meat quality in ovarioectomized gilts treated with estradiol-17 B *
- 4.49 Changes in cytosol protein, tissue DNA and glycogen contents in two types skeletal muscles in ovarioectomized gilts *
- 4.50 Biochemical and histochemical studies on the muscle tissue of different farm animals and poultry 298
G.UZUNOV, Y.PETROV
- 4.51 Quality of meat from pigs fattened with feed mixtures with an addition of bacterial protein 306
G.MONOV, A.DJOUROV
- 4.52 Influence of fasting and cholesterol loading on the transport of calcium ions through the sarcolemma membrane 310
O.PETKOVA, G.UZUNOV, N.IVANOV, P.POPOVA
- 4.53 Influence of estradiol-17 B on some blood plasma metabolites in ovarioectomized gilts *
- 4.54 Appréciation objective de la stabilité de la couleur de saucissons, produits avec du colorant sanguin pulvérisé 319
E.MITEVA, D.GADJEVA, N.NESTOROV, A.GAKEV
- 4.55 Structural, mechanical and microstructural changes in dietetic poultry semi-products 321
T.BAKALIVANOVA, P.VELINOV, M.JIKOV, M.LALOV
- 4.56 Influence of cold storage on some biochemical indices of frozen dietetic semi-products 325
T.BAKALIVANOVA, ST.BAKALIVANOV, S.MITKOV
- 4.57 Einfluss der Kühlung auf die strukturell-mechanischen und mikrostrukturellen Veränderungen Tiefgekühlter

- diätetischer Geflügelfleischhalbfabrikate
T.BAKALIVANOVA, P.VELINOV, M.LALOV, M.ZHIKOV
- 4.58 Morphological changes in muscle tissue upon the heat treatment of sterilized cans of pork and beef
V.VLADOV, P.VELINOV, M.ZHIKOV
- 4.59 Morphological investigations on fat and protein emulsion in the dietetic forcemeat production
G.DIMITROV, P.VELINOV, M.JIKOV 329
- 4.60 Histochemical and electronic microscope research in the tests for establishing the chemical and biological parameters of protein sources in making food products with a balanced amino acid composition
TS.TAKEVA, A.CHOLAKOVA, S.DRYANOVSKY, ST.BAKALIVANOV 332
- 4.61 On some indices, related to the medical and biological evaluation of combined meat products with soya isolate "E 500"
G.DRYANOVSKY, A.CHOLAKOVA, A.KRASTEV, ST.BAKALIVANOV 335
- 4.62 The spectra in the UV-region as a criterion for the evaluation of lipid changes during frigorific preservation of meat
L.BLIZNAKOVA, G.DIMITROV 339
- 4.63 Application of a new method for the determination of free fatty acids in meat lipids
DORA GADJEVA 343
- 4.64 A comparative investigation of hydrolytic and oxidative changes in lard, induced by shortwave irradiation and heating
D.GADJEVA, E.MITEVA 346
- 4.65 Microstructural analysis in meat and meat products studies
P.VELINOV, A.BELOUSSOV 348
- 4.66 Microstructural changes during the mechanical and heat treatment of pork in the accelerated production of ham
P.VELINOV, M.JIKOV *
- 4.67 Untersuchung der Lipide-Veränderung in gefriergetrockneten Fleischspeisen während der Lagerung
E.ZWETKOVA, I.SACHARIEV, K.BEEV, N.ALEXIEV 355
- 4.68 Quantitative and ultrastructural studies on dried raw products of unfragmented beef, produced with lowered levels of nitrates and nitrites
B.DINEVA, TS.TAKEVA, TS.TSVETKOV, R.BRANKOVA, A.KRASTEV *
- 4.69 Changes in lipid fractions during the ripening of fast-ripening sausages manufactured using starter cultures
B.DINEVA, L.PIPEROVA, TS.TSVETKOV, A.KRASTEV, R.BRANKOVA 359
- 4.70 Effects of estradiol and progesterone on the activities of tyrosine aminotransferase and ornithine decarboxylase and the levels of protein in the liver and muscles of ruminants
A.KRASTEV 364
- 4.71 Nutritive value of meat and by-products
E.GELENCSER, E.PETRES, E.HORVAT, G.KARPATY 366

TABLE OF CONTENTS

* Papers not available at time of printing

5.	MEAT AND MEAT PRODUCT MICROBIOLOGY: MICROBIAL CONTAMINATION OF MEAT AND THE LATTER'S HYGIENIC (SANITARY) EVALUATION; MICROBIAL CHARACTERISTICS OF PACKAGED MEAT AND MEAT PRODUCTS; MICROBIAL CHARACTERISTICS OF CANNED MEAT; MICROBIAL CHARACTERISTICS OF MEAT PRODUCTS; MICROBIAL STARTER CULTURES; SYSTEMATICS, TECHNOLOGY, PHYSIOLOGICAL CHARACTERISTICS	
5.1	Microbiology of meat and meat products D.A.A.MOSSEL, J.M.A.SNIJDERS, F.J.M.SMULDERS	369
5.2	Studies on the relation of the biochemical, organoleptical and microbiological characteristics of semidry raw-smoked sausages with added bacterial starter cultures M.M.MIKHAILOVA, V.V.KRYLOVA, V.G.VASILYEV, O.V.DYOMINA, G.I.SOLODOVNIKOVA, I.G.ANISIMOVA, I.V.LAGODA, G.V.KOSAREVA	377
5.3	The microbial content of the chilled and partly frozen meat during cold storage period S.V.NETSEPLIAEV, N.P.MAZURENKO, A.S.BIBIKOV	380
5.4	Microbiological indices of structured protein products (SPP) based on blood plasma V.M.MATVIYTCHUK, N.N.LIPATOV, I.A.ROGOV, E.I.TITOV, A.G.ZABASHTA	382
5.5	The study of qualitative and quantitative changes of PSE and DFD meat microflora in relation to its technological utilization J.BUDIG, E.NÁPRAVNÍKOVÁ	384
5.6	Einfluss von Starterkulturen auf pathogene Mikroorganismen M.DELÉNYI, K.INCZE	388
5.7	Hot deboning in Cuba. Microbiological aspects CARIDAD VALLADARES, MANUEL ROCA, SIOMARA JARES	393
5.8	The use of microbial cultures in smoked beef products I.I.TIMOSHCHUK, T.M.SHAPOSHNIKOVA, V.S.DENISENKO, V.P.KRYLOVA, L.A.BUSHKOVA, G.K.ERYOMINA	395
5.9	Observations on "taint" in gammons J.F.DEMPSTER	397
5.10	ATP-bioluminescence: a rapid method for the estimation of microbial contamination of meat and meat products H.LABOTS, F.K.STEKELENBURG	401
5.11	Application of bioluminescence as a rapid method for assessment of the microbial status of meat PETER ZEUTHEN, BJARNE ERIKSEN	405
5.12	Interaction Lactobacillus sp. - Brochothrix thermosphacta JEANNE FOURNAUD, ROBERTE LAURET, JEAN SECHET	408
5.13	Microbiology of pork skin during slaughtering P.COLIN, CECILE LAHELLEC	412

5.14	Survival of campylobacter jejuni in selected gaseous environments D.M.KINSMAN, M.D.GREENBERG, N.J.STERN	415
5.15	Rapid counting of Pseudomonas fragi in meats with an ELISA method JEAN LABADIE, KHALED HARHOURA	419
5.16	Campylobacter chez la dinde à l'abattoir E.DROMIGNY, I.VACHINE	*
5.17	Influence of the ways of freezing(one- or two-stage) on the microflora in frozen meat MILO MILEV	422
5.18	Test for toxicity of Micrococci and Staphylococci used as starter cultures T.PEEVA, R.BRANKOVA, M.RADEVA, M.YULIANOVA	425
5.19	Species composition of microorganisms of the Micrococccaceae family in veal and pork production I.KALOYANOV, G.MONOV	428
5.20	Investigation on the possibilities of isolation of salmonella bacteria from minced meat by means of rapid culture method I.KALOYANOV, TS.DOKOV	431
5.21	Dependence between the temperature and the duration of enrichment at isolation of Yersinia enterocolitica in meat J.KUNEV	435
5.22	The presence of Streptococcus avium on the surface of the slaughtered poultry YORDAN GOGOV	438
5.23	Studies on the spread of Y.enterocolitica in slaughter-intended animals ATANAS PAVLOV	441
5.24	Studies on the presence of Y.enterocolitica in meat ATANAS PAVLOV	445
5.25	Biochemical properties of isolated from animals and meat strains of Y.enterocolitica ATANAS PAVLOV	449
5.26	Some aspects referring to the storage of freeze-dried bacterial strains, used as a starter in the production of meat products L.IVANOVA, ST.DJEVIZOV	452
5.27	Studies on the proteolytic activity of isolated from veal psychrophilic microorganisms ROSITSA ILIEVA, MOUSA DONZO, ANNA TCHMEL	457
5.28	A study on the antibiotic sensitivity of pediococcus cerevisiae strains 136 and 167 used as starter culture K.HOSKOVA, ST.DANCHEV	461
5.29	Studies into the possibilities of preparing fast-ripening meat products using starter cultures instead of G.D.L. R.BRANKOVA, M.RADEVA, B.DINEVA, A.KRUSTEV, E.BARILSKA	463
5.30	Viability of microorganisms in freeze-dried starter preparations under refrigeration conditions TS.TSVETKOV, R.BRANKOVA, M.YULIANOVA, M.RADEVA, B.DINEVA	467

5.31	Einfluß der technologischen Bearbeitung auf die Mikroflora der gefriergetrockneten Fleischprodukte D.DINTSCHEV, E.ZWETKOVA, K.BEEV, N.ALEXIEV	841
5.32	Improvement of the method of raw-dried cured ham production using starter cultures R.KISSEVA, ST.DJEVIZOV, ST.DANCHEV	471
5.33	Microflora of raw-dried beef products manufactured by an accelerated technology M.CHAKAROV, N.DIMITROVA	474
5.34	Intensified raw-dried pork products manufacture using starter cultures. II. Changes in product colour characteristics R.KISSEVA, ST.DANCHEV, M.RENERRE, ST.DJEVIZOV	477
5.35	Influence of the final temperature on the microflora under meat cold storage MILO MILEV	480
5.36	Influence of nitrite on the ultrastructure of Streptococcus faecalis T.ATANASOVA-ASSENOVA, N.CHEREPOVA	483
6.	MEAT PRODUCT TECHNOLOGY: CURING; RIPENING AND AGEING; MECHANICAL TREATMENT; HEAT TREATMENT (COOKING OR STERILIZATION); SMOKING; DRYING; TYPES OF MEAT PRODUCTS; MEAT PRODUCT PACKAGING	
6.1	A study into the influence of sausage casing porous structure on the mechanism of water transfer and sausage dehydration intensity A.V.LYKOVA, V.K.MAMYKIN, G.M.SLEPYKH, I.I.IVLEV	486
6.2	A complex study of tripe as the raw material for the manufacture of comminuted meat products N.N.LIPATOV, I.A.ROGOV, E.N.GHERASIMTCHIK, N.G.KROKHA, L.F.MITASEVA	488
6.3	Cooked sausage production with the use of low pressure during the defreezing, corning, sausage-meat preparation and necessary equipment N.K.ZHURAVSKAYA, V.I.IVASHOV, O.I.YAKUSHEV, L.F.MITASEVA	491
6.4	On the composition of some combination products F.I.VERKHOTUROVA, M.S.BIDENKO, L.S.BALDALINOVA	493
6.5	The evaluation of mince quality in canned skinless frank production in case of combined heat supply V.I.KHLEBNIKOV, E.F.ORESHKIN, V.N.MAKHONINA, S.G.ZABASHTA	496
6.6	Substantiation of the formulation of multicomponent protein-containing brines for cured beef products E.F.ORESHKIN, M.M.TASHPULATOV, G.P.GOROSHKO, A.S. BOLSHAKOV	500
6.7	The development of new canned meats for dietetic therapy of infants A.V.USTINOVA, N.L.PAVLOVA, L.F.KARMYSHOVA, N.N.KOZLOVA, V.T.KOLESNIKOVA, K.S.LADODO, T.E.BOROVIK, B.P.SUKHANOV	502
6.8	Particularities in collagen film structure formation V.M.GORBATOV, P.M.GOLOVANOVA, N.N.TUZOVA, L.R.MAKAROVA, G.M.YAZIKOVA, V.K.SMIRNOV, I.A.MARTEMYANOVA, E.V.ELISEYEVA,	505

6.9	Improving the process of smoked sausage manufacture V.M.GORBATOV, E.T.SPIRIN, V.V.VAGIN, N.V.ZAVYALOV, G.Z. DJAMIJASHVILI	508
6.10	A study into meats cooking in the environment with a high relative humidity S.A.ALEXANDROV, V.M.GORBATOV, S.I.SUKHANOVA, L.A.TSARIYA	510
6.11	Utilization of poultry by-products as a source of "predi- gested" protein for dietetic and enteric tube feeding E.KUDINOVA, V.VOLIK, V.BELIKOV, A.NESMIYANOV	512
6.12	Conditions of sterilization of canned mechanically debo- ned and minced poultry meat L.GRUNINA, G.CHERNOVA, V.GONOTSKY, I.CHVANENKO	514
6.13	Hygienic aspects of liquid smoke R.UHEROVÁ, J.DUBRAVICKÝ, V.SMIRNOV, J.HRIVNÁK	516
6.14	The mechanism of heat and mass transfer during the thermal treatment of sausages FR.POKORNÝ, ST.MAREČEK	520
6.15	Die katalytische Wirkung des Nitrosylhämoglobins bei der Lipidoxydation L.JANKIEWICZ, A.RUTKOWSKI	*

- 8.20 Improvement of sausage color by addition of beef juice
FAWZI AHMED SALEM, HUSSEIN K.EL-MANAWATY, AFAF KHAZBAK 797

8.21	A new apparatus and method for determining meat tenderness I. ZAKHARIEV, N. DIMITROVA	800
8.22	Medical and biological evaluation of combined meat products with input of wheat gluten A. TCHOLAKOVA, A. KRUSTEV, ST. BAKALIVANOV, G. DRYANOWSKY	804
8.23	Research on some technological and sensory properties of meat of fattened with containing sterilized scrap rations pigs G. LALOV, D. KATSAROV, ZL. TRENDAFILOVA	808
8.24	Sensory texture profile of some meat products ZL. TRENDAFILOVA, I. YOTOV	810
8.25	Elaboration of objective criteria in round raw-dried sausage manufacture N. TYUTYUNDJIEV	814
8.26	A study on the influence of "Tsvetostabyl-B" on the colour, amount of free nitrites and possibilities of raw-dried sausage manufacture with reduced nitrate amount I. BAYCHEV	817
8.27	Studies on and results of the application of a combined protein preparation in sausage manufacture N. TYUTYUNDJIEV, M. CHERNEV, Z. TSANEVA	820
8.28	Remote measuring of lard thickness of slaughter pigs carcasses A. MANGARUDOV, G. TERZIYANOVA	824
8.29	Intensification of turkey meat production by using effective additives V. TODOROVA, N. SEDLOEV, N. NESTOROV, A. KRUSTEV	826
Round Table 1	The contribution of small species to meat production in developing countries JOHN E. OWEN, LORRAINE DITCHBURN	829
Round Table 2	L'utilisation des cultures starter dans la fabrication des saucissons à longue maturation: Techniques de préparation, étuvage, séchage et maturation PIETRO BALDINI	833
	- A selected considerations on sensorial evaluation and instrumental systems for the analysis and quality control of meat and meat products and on additives in use by the meat industry ZBIGNIEW DUDA	844
	- Qualitätsveränderungen der Inhaltsstoffe des mechanisch entbeinten Fleisches (MEF) in Abhängigkeit von den Aufbewahrungsbedingungen JANKIEWICZ L., MROZIEK J., SLOWINSKI M., WASILEWSKI S.	853
	- Die katalytische Wirkung des Nitrosylhämoglobins bei der Lipidoxydation JANKIEWICZ L., RUTKOWSKI A.	857
