

**34TH INTERNATIONAL CONGRESS OF
MEAT SCIENCE AND TECHNOLOGY**

CONGRESS PROCEEDINGS

PART A

29 AUGUST - 2 SEPTEMBER 1988

**BRISBANE
AUSTRALIA**

HOST ORGANISATIONS

- Livestock and Meat Authority of Queensland
- Meat Research Laboratory, CSIRO Division of Food Processing

ORGANISING COMMITTEE

Patron:

- Mr W.E. (Bill) Meynink, C.B.E.

Chairman:

- Mr B.A. (Bruce) Campbell, M.B.E.
Livestock and Meat Authority of Queensland

Secretary:

- Mrs E.D. (Elwyn) McKee,
Livestock and Meat Authority of Queensland

Congress Chairman:

- Mr J.J. (John) Macfarlane,
CSIRO Meat Research Laboratory

Program Committee Chairman:

- Dr R.F. (Tim) Thornton
CSIRO Meat Research Laboratory

Industry Day Chairman

- Mr I.F. (Ian) Whan,
Livestock and Meat Authority of Queensland

Program Committee

- Mr C.S. (Colin) Chandler
- Dr A.F. (Aub) Egan
- Dr P.S. (Peter) Hopkins
- Mr B.Y. (Barry) Johnson
- Dr E.R. (Ray) Johnson
- Dr N.L. (Neville) King
- Mr J.J. (John) Macfarlane
- Dr R.F. (Tim) Thornton (Chairman)
- Dr D.J. (Des) Walker
- Mr I.F. (Ian) Whan

Editors

- C.S. (Colin) Chandler
- R.F. (Tim) Thornton

34TH INTERNATIONAL CONGRESS OF MEAT SCIENCE AND TECHNOLOGY

TABLE OF CONTENTS

Part A

THEME ADDRESS

Meat and Mankind M.V. Tracey AO.....	1
--	---

GROWTH and CARCASS CHARACTERISTICS

Manipulation of Growth in Domestic Animals R.F. Thornton and R.K. Tume	6
Muscle Growth in Meat Animals William R. Dayton and Marcia R. Hathaway	15
Adipose Tissue Growth in Livestock Species Stephen B. Smith.....	23
The Effect During Growth of Moderate Exercise on Muscle Metabolic Characteristics In Vivo and Relation to Meat Quality and Sensory Properties B. Essen-Gustavsson, K. Lundstrom, G. Larsson, A. Lindholm, A.C. Nordin, I. Hansson and E. Tornberg	27
Electromagnetic Scanning, Ultrasonic Imaging and Electronic Probing for Estimation of Pork Carcass Composition J.C. Forrest, C.H. Kuei, M.W. Orcutt, A.P. Schinckel, J.R. Stouffer and M.D. Judge.....	31
Carcass Traits and Longissimus Shear Values of Open Heifers and 30-Month-Old Heifers that Produced One Calf A.W. Waggoner and M.E. Dikeman	34
Variations in the Price of Export Beef Carcasses Associated with Genotype and Sex B. Ball and E.R. Johnson	37
Fatty Acid Composition of Subcutaneous Fat in Japanese Black Steers During Fattening Mitsuharu Ishida, Takeo Takeda, Takao Saito, Yuji Kano, Tadashi Matsumoto and Isao Takahashi	40
Qualitative Aspects of the Carcass and Meat of Intact Male Pigs and Castrated at Different Ages Lauro Muller, J.C. Gauer Da Silveira and Felipe Da M.E. Souza.	43
Influence of Fattening Technology on Carcass and Meat Quality in Young Bulls S. Cepin	45
The Prediction of Beef Carcass Lean Content S.D.M. Jones, A.K.W. Tong and W.M. Robertson.....	47
Determination of Saleable Beef Yield in Carcass Competitions E.R. Johnson and B. Ball	49
Fiber-Type Distribution in Porcine Muscles M. Ruusunen and E. Puolanne.....	52
Performance, Carcass, Meat Sensory and Endocrine Traits of Young Bulls and Steers Implanted with Trenbolone Acetate and Zeranol R.D. Johnson and M.E. Dikeman	55
Undernutrition and Body Composition of Rats D.M. Murray and C.G. Stubbs	59

Sex and Compudose® Implantation Effects on Porcine Longissimus and Semimembranosus Fibre Types M.C. Hunt, G.A. Highfill, M.E. Dikeman and R.H. Hines.....	62
The Distribution and Partitioning of Fat in Southdown Sheep Selected for High and Low Depths of Backfat I.T. Kadim, R.W. Purchas, A.L. Rae and R.A. Barton	65
Participation and Quality of some Tissues in Pig Carcasses of Different Production Types Antun Petricevic, Gordana Kralik, Dragoslav Petrovic.....	68
An Evaluation of Rump P8 and Twelfth Rib Fat Thickness Measuring Sites for Estimating Saleable Beef Yield in Export and Local Carcasses E.R. Johnson and B. Ball	71
Carcass Composition of Pigs Fattened on Swill and Different Types of Sugar-Cane Molasses Ad Libitum or Restrictedly Diana Cruz-Bustillo, A. Perez, A. Sanchez and Blanca Barretto ..	74
Industrial Yields of Pig Breeds Commercially Important in Cuba Ana Maria Gonzalez, Carlos Fernandez and Diana Cruz-Bustillo.	76
Composition of Trimmed Retail Lamb Cuts D.L. Hopkins	78
The Fattening and Carcass Traits of Chinese Native Breed Pigs and their Improvement Shi Qishun	80
Effect of Energy Level and Protein Content of the Ration on some Aspects of Lipid Metabolism in Fattening Lambs V. Banskalieva, Z. Chindarska, T. Dardjonov, and V. Dimov	84
Slaughter Value of Pigs of Different Production Types Gordana Kralik, Antun Petricevic, Franjo Levakovic.....	88

STUNNING of LIVESTOCK

Carbon Dioxide Anaesthetization of Pigs K. Barfod and K.B. Madsen.....	91
Pre-Slaughter CO₂-Anaesthesia for Swine A. Forslid.....	93
Possible Genetic Effect on Pig's Reaction to CO₂ Stunning Temple Grandin.....	96
Two Aspects of CO₂-Stunning Method for Pigs: Animal Protection and Meat Quality Christian Ring	98
The Effect of Environmental Factors such as Preslaughter Treatment and Electrical Stunning on the Occurrence of Haemorrhages in the Shoulder of Slaughter Pigs E. Lambooy and W. Sybesma	101
Effect of Temperature Fluctuation on Petechial Hemorrhages in Pigs Temple Grandin.....	104
Cardiac Arrest Stunning in Poultry Ingrid Schutt-Abraham and Hans-Joachim Wormuth.....	106
Effect of Overstunning on Bleeding Degree of Broiler Chicken Meat L.A. Sokolova, T.V. Ivanova, I.I. Tochilova.....	109
Effect of Stunning and Slaughter Method on Brain Function and Bleeding Efficiency in Calves N.G. Gregory, F.D. Shaw and R.W. Rowe.....	112

Relationship between Cortical Electrical Activity and Mean Arterial Blood Pressure during Slaughter of Calves F. Bager, A. Tavener, C.E. Devine and K.V. Gilbert	114
The Use of Fourier Techniques in the Analysis of Pre- and Post-Stun Electroencephalograms F.D. Shaw and P.N. Jones	117
The Quality Control of Humane Slaughter D.K. Blackmore	120

PRESLAUGHTER and SLAUGHTER

Transport of Sheep and Cattle W.R. Shorthose and J.R. Wythes	122
Behaviour in the Pre-Slaughter and Slaughter Environments Ron Kilgour	130
Stunning and Slaughter N.G. Gregory	139
The Influence of Abattoir Lairage Conditions on the Behaviour and Bruising of Cattle G.A. Eldridge	143
Effect of Pre-Slaughter Fast and Transportation of Pigs on Weight Loss and Meat Quality H. Mayes, L. Hahn, J. Nienaber, G.C. Jesse, M. Anderson, A. Becker, H. Heyman, R. Bryan and H.B. Hedrick	145
Road Transport Factors that may Influence Stress in Cattle G.A. Eldridge	148
A Survey of the Incidence of High pH Beef Meat in Victorian Abattoirs R.D. Warner, T.G. Truscott, G.A. Eldridge and P.R. Franz	150

MEAT SCIENCE and MUSCLE BIOLOGY

Connective Tissue and Meat Quality Allen J. Bailey	152
Myofibrils and Meat Quality Gerald Offer, Peter Purslow, Richard Almond, Tony Cousins, John Elsey, Graham Lewis, Nick Parsons, Alan Sharp	161
Meat Tenderness P.V. Harris	169
Myosin Subfragment 1 Modulates the Binding of Glycolytic Enzymes to Muscle Myofibrils F.M. Clarke, Petra Stephan and D.J. Morton	173
The Occurrence of Myosin Light Chain 1 Slow in Bovine Muscles O.A. Young	175
The Relationship between Pyridinoline and Thermal Stability of Muscle Collagens D.J. Horgan, N.L.R. King, L.B. Kurth and R. Kuypers	179
Influence of Cooking Temperature and Time on Meat Mutagen Formation C. Chen, A.M. Pearson, J.I. Gray and S.M. Laing	182
The Effect of Glycolytic Enzymes on the Structure and Physical Properties of Actin D.J. Morton, J.F. Weidemann, G. O'Reilly and F.M. Clarke	185
Volatile Compounds and 'Grassy' Flavour of Lamb and Beef Related to Feeding and Storage M.E. Bailey, J. Suzuki, H.G. Joseph, C.V. Ross and D.H. Keisler	187
The Viscoelastic Properties of Whole Beef (M. Biceps femoris) During Cooking as related to its Sensory and Structural Characteristics E. Tornberg and K. Persson	190
Prediction of the Tenderness of Cooked Meat from Measurements made on the Raw Meat W.R. Shorthose, P.V. Harris, L.M. Eadie and R.F. Dickinson	194
Methods for Determining Animal Age D.J. Horgan, N.L. King and L. Kurth	197
An Immunological Method to Assess Protein Degradation in Post-Mortem Muscle Everett Bandman, Suh-Fon Hwan and Dana Zdanis	200
Preparation of Muscle Samples for Ultrastructural Studies and Correlative Microscopy (LM, SEM, TEM) of Sarcomere Length and Spacing of Intermyo-fibrillar Connections T.J.P. Silva, C.E. Bracker, M.W. Orcutt, J.C. Forrest and M.D. Judge	205

Effect of Growth Rate on Meat Quality of Beef Cattle B.L. McIntyre	210
The Contribution of Muscle pH Differences to the Relative Tenderness of Meat from Bulls and Steers R.W. Purchas	213
Effect of Diet on Growth and Muscle Fibre Characteristics of Broilers Slaughtered at Six and Seven Weeks F. Nicastro, W.G. Moody, A.H. Cantor and J.D. Kemp	216
Muscle Fibre Composition of the Bovine Tail: A Pilot Study O.A. Young and Paula M. Kenrick	219
Influence of Freezing Rate and Storage Time on Beef Quality R. Hanenian, G.S. Mittal and W.R. Usborne	222
Edible Surface Coatings to Reduce Weight Losses from Chilled Carcasses V.H. Powell and I. Griffiths	226
Investigation of Temperature Minima for the Storage of Chilled Meat I.J. Eustace and B.A. Bill	228
Characterization of Heifer Beef Colour Related to Natural onset of Estrus and Estrus onset caused by withdrawal of Melengesterol Acetate John R. Romans, J. Edward McClendon, Steven L. Moore and A.L. Neuman	231
Influence of Vacuum and Modified Atmosphere Packaging on Quality of Venison Loins D.L. Seman, T.R. Manley and K.R. Drew	233
Shrinkage and Muscle Quality in Spray-Chilled Beef Carcasses S.D.M. Jones and W.M. Robertson	236
A Comparison of Meat Properties of Young Cattle with Low or Adequate Liver Copper Concentrations P.E. Bouton, P.V. Harris, W.R. Shorthose, D.R. Smith and N. Anderson	238
Changes in the Structural Proteins and the Shear Values of Muscle as a Result of Prolonged High Pressure Treatment J.J. Macfarlane, I.J. McKenzie and R.W.D. Rowe	240
The Practical Significance of High Temperature Conditioning for the Tenderness of Hot Boned Beef and Veal Riette L.J.M. Van Laack and Frans J.M. Smulders	247
The Development of a Technology of Boneless Ready-To-Cook Meats from Hot Beef N.N. Shishkina, I.I. Kargaltsev, T.I. Prosyolkova, L.F. Kanykina, L.I. Selivanova, G.Ya. Rezgo and L.M. Matrosova	250
Autolytical Changes of Hot Vacuum-Packed Meat During Chilling and Storage N.N. Shishkina, A.V. Kanevskaya, A.A. Belousov and V.I. Plotnikov	252
Membranal Lipid Peroxidation in Relation to Meat Stability D.J. Buckley, J.I. Gray, C.F. Lin, A. Ashgar, A.M. Pearson, A.M. Booren and E.R. Miller	254
Effects of Electrical Stimulation on Post-Mortem changes in Myofibrillar and Sarcoplasmic Proteins of Beef Masayuki Mikami and Hiroyuki Miura	257
Development of an Ultrasonic Resonator Method for Determining the Content of Protein, Fat and Moisture in Meat Products S.I. Sukhanova, M.V. Pronina, A.P. Sarvazyan and V.A. Bukin	259
Influence of Electrical Stimulation on the Quality of Chilled and Frozen Ready-To-Eat Meat Steaks L.V. Kulikovskaya, M.A. Kibirasulayev, O.I. Rumynskaya, N.N. Shishkina and I.I. Kargaltsev	262
The Effect of Glycolysis on the Biological Value of Duck Meat V.P. Panov	264
Antagonism in Different Carcass and Meat Quality Traits of Cattle Chr. Augustini and V. Temisan	266
An Initial Evaluation of the Tail Meat of Farmed, Freshwater, Johnston River (<i>Crocodylus johnstonii</i>) and Salt-Water (<i>Crocodylus porosus</i>) Crocodiles P.V. Harris, B.J. Shay and W.R. Shorthose	269
Estimation of Changes in Beef Muscular Tissue at Different Processing and Storage Conditions S.A. Yevelev and N.A. Golovkin	271
Electrostimulation of Meat of Different Patterns of Autolysis L.V. Gorshkova, L.S. Kudryashov and A.S. Bolshakov	274

210	Multielement Content of Raw and Cooked Beef as Determined by Neutron Activation Analysis R.F. Kelly and J.H. Williford Jr.	276
213	Structural Changes in Beef Muscle Proteins during Heating E.F. Oreshkin, M.A. Borisova, E.A. Permyakov and E.A. Burstein	280
216	Changes in the Proteolytic Activity of Lysosomal Enzymes in Pork Muscles under Electrical and Mechanical Effects L.S. Kudryashov, L.V. Gorshkova, N.N. Potipayeva, A.S. Bolshakov, T.P. Buslayeva and A.A. Belousov	282
219	Meat Pigment Determination by a Simple and Non-Toxic Alkaline Haematin Method - An Alternative to the Hornsey and the Cyanometry Methods Anders Karlsson and Kerstin Lundstrom	285

Part B

MEAT PRODUCTS and BYPRODUCTS

231	Meat Products: Fresh and Restructured Glen R. Schmidt	288
233	Semi-Moist Foods R.G. Hamilton	291
236	Lipid Oxidation and the Flavour of Meat Products Leon J. Rubin and Fereidoon Shahidi	295
238	The Effect of NaCl-KCl-MgSO₄-Mixture (Pan®) on the quality of Cooked Sausage E. Puolanne, E. Saarela and M. Ruusunen	302
240	Utilisation of Meat Fractions and Predictive Modelling of Meat Product Cooking Losses and Texture M.K. Knight	305
247	Chemical and Physical Effects of Two Collagenolytic Adjuncts on Restructured Beef N.G. Marriott and E.A. Elkhallifa	312
250	Effects of Salt and Phosphates on Myofibrillar/Cytoskeletal Proteins of Bovine Skeletal Muscle F.C. Parrish Jr. and B.C. Paterson	315
252	Testing Meat Cohesiveness using the Instron Universal Testing Machine and the Cosu Cell H.W. Ockerman, D.M. Greene and R.R. Hodges	318
254	Interactions between K-Carrageenan and Myoglobin G.D. Wills, D.A. Ledward and J.R. Mitchell	322
257	Characteristics of Surimi-like Material from Beef, Pork and Beef By-Products F.K. McKeith, P.J. Bechtel, J. Novakofski, S. Park and J.S. Arnold	325
259	Meat Batter Rigidity Changes during Cooking L.R. Correia and G.S. Mittal	327
262	Influence of Low Voltage Electrical Stimulation and Post-Mortem Salting Time on Textural Traits of Beef Bologna D.L. Seman	330
264	Use of Starch Based Binders in Cooked Meat Emulsions G. Bonnefin and P.A. Baumgartner	333
266	Effects of Various Fillers on the Smokehouse Cooking Kinetics of Meat Batters L.R. Correia, G.S. Mittal and W.R. Osborne	336
269	Effects of Sugars on Postmortem Glycolysis in Bovine Muscle Minces O.A. Young, S.M. Humphry and D.J.C. Wild	339
271	Research Results of Dynamics and Degree of Pigs and Cattle Bleeding as Basis for Higher Blood Usage R. Radovanovic, D. Cavoski, P. Bojovic and Marija Perunovic	342
274	Selective Precipitation and Isolation of Bovine Blood Immunoglobulins by Polyphosphate and Chromatographic Methods S.A. Al-Mashikhi, Y.Z. Lee, S. Nakai and J.S. Sim	345
	Assessment of Biological Value of Seven Egyptian Buffalo Meat By-Products Prof. Dr. M. Kamal E. Youssef, Prof. Dr. M.K. Farag, Dr. A.A. Foad and S.T. Kheir	350
	Changes in Gross Chemical Composition, Amino Acid Composition and Mineral Content in Hubbard Chicken Tissues during Boiling and Frying Prof. Dr. M. Kamal E. Youssef and Dr. Mohamed R.A. Rashwan	354

	Synthesis of Cooked Cured-Meat Pigment, Dinitrosyl Ferrohemochrome, and its Colour Characteristics Fereidoon Shahidi and Ronald B. Pegg	357
	The Use of Globin from Haemoglobin (Globinex®) in Meat Products J. Auvinen and E. Puolanne	360
	Preparation of Fermented Sausages from Under Utilized Fish and Meat Sources Donald M. Kinsman, Sam Angel and Jhung Won Hwang	363
	The Effect of Starter Cultures on Sensory and Physicochemical Properties of Long Ripened Dry Sausage Dusan Cavoski, Dragojilo Obradovic, Radomir Radovanovic, Marija Perunovic and Tomislav Fridl	366
	Meat Starter Cultures in Salami Manufacture J. Coventry, R. Carzino and M.W. Hickey	368
	Freezing and Freeze-Drying of Lactobacilli for Successful Italian Style Dry Salami Manufacturing Daniel Cahalan and Constantin Genigeorgis	371
	MAM: Traditional Thai Fermented Beef Bulan Phithakpol	374
	The Use of Nisin and Lactoperoxidase in Comminuted Meat Products R. Carzino, J. Coventry and M.W. Hickey	376
	Shelf-Life Evaluation of Collagen and Sheep Gut Casings for the Manufacture of Fresh Beef Sausages C. Dower and P.A. Baumgartner	379
	Effects of Freezing and Thawing on the Salting Process of Normal and PSE Porcine Muscles M. Severini, G. Cenci and A. Vizzani	382
	Chemical and Histological Examination of Some Egyptian Meat Products Talaat El-Khateib, H. Abd El-Rahman, G. Kamel and A.M.A. Ali	385
	Quality Control of Meat and Non-Meat Components in Local Hamburgers Abdul Salam Babji	387
	Consumers Acceptability of Some Typical Italian Cooked Meat Products Containing Isolated Soy Proteins as Functions Ingredients E. Bianchi, A. Cantoni, E. Ratti	391
	MIRINZ Low Temperature Rendering Process J.E. Swan	394
	Effect of Dehydration on Meat Quality Using a Contact-Dehydrating Sheet Nobuhiko Arakawa, Yuh-Jwo Chu, Mamoru Matsubara and Masami Takuno	397
	Heating Rate of Cured Canned Hams during Pasteurization M.D. Suvakov	401
	A Study of Sensory Texture Profile of Dry Carso Hams S. Rencelj, B. Zlender, F. Bucar	403
	Interaction Between Myofibrillar and Soy Protein in Raw State Haruo Negishi and Sumio Yoshikawa	407
	Influence of Meat Restructuring Systems on the Lipid Oxidation in Lamb S. Raharjo, J.N. Sofos, J.A. Maga and G.R. Schmidt	410
	The Effect of Injected Soy Protein Concentrate on Restructured Beef G.R. Schmidt, S.L. Moore, B.D. Gildemeister and J.N. Sofos	413
	Functional Properties of Offal Octavio Venegas, Dany Perez and Roger De Hombre	416
	The Use of Aggregative Stability Theory for Analysis of the Process of Coagulation Structure Formation by Meat Proteins N.N. Lipatov	419
	A Study into the Influence of Biologically Active Substances used for Cooked-&-Smoked Sausages Production I.G. Anisimova, M.M. Mikhajlova, O.V. Teryo Shina, O.V. Prilipukhova	423
	Factors Determining the Formation of Cured Meat Products Structure Prepared from Coarse-Cut Meat V.I. Hlebnikov, G.P. Sarycheva, H.N. Motalov, A.V. Fazylov, N.S. Mitrophanov, S.H. Kurakbaev and N.N. Fedutenko	425
	Nham (Thai Fermented Pork) Making with Starter Cultures Aran H-Kittikun	427
	Screening of Bacterial Starter Cultures for Fermented Meat Products Peter Zeuthen and Susanne Mansdal	430

Influence of pH Value and Relative Humidity on Drying of Fermented Sausages A. Stiebing and W. Rodel.....	433
Characteristics of Dry Poultry Meat Sausages with and without Starter Cultures Zorka Velic, Lj. Nedeljkovic, Gordana Vojinovic, Radmila Zivanovic, Ruzica Diklic,.....	436
Chilled Storage of Soy Flour-Extended Minced Beef Gustavo Andujar and Marta Santana.....	439
Biotechnological Modification of Raw Meat Materials, Rich in Connective Tissue, in the Manufacture of Meat Products of Ensured Quality N.N. Lipatov, V.G. Borekov, N.G. Krokha, L.F. Mitaseva, O.I. Bashkurov, A.B. Lisitsyn and M.P. Voyakin.....	444
Influence of Vacuum Smoking and Dehydration of Minced Meat during Smoked Sausages Production V.V. Vagin, N.V. Zavijyalov, S.I. Khyvlyya and T.A. Kuznetsova.....	446
Effects of Curing Agents on Heme Pigment Content in Meat R. Sakata, G.S. Lee and Y. Nagata.....	450
Antimicrobial Effects of Liquid Smokes in Mechanically Deboned Turkey Meat J.N. Sofos, J.A. Maga, J. Martin and G.R. Schmidt.....	453
Enzymatic Activities of Porcine Stomachs and Porcine and Bovine Pancreases Lenka Zivkovic and Veselinka Djordjevic.....	456
Effect of Beef Blood Collection Procedures and Storage Conditions on Blood Quality and Plasma Yield Zarko Trumic, Vesna Matekalo-Sverak, Jovan Panin.....	459
Common Causes of Condemnation of Carcasses and Organs at the Ipoh Abattoir C. Sukirthalingam.....	462
Changes in the Quality Characteristics of Horsemeat During Curing under Electro-Mechanical Effects A.S. Bolshakov, V.G. Borekov, E.T. Tuleuov, Yu.A. Kiselyov, K.Zh. Amirkanov and E.T. Oreshkin.....	465
On the Dynamics of Curing Agents Penetration and Redistribution in Meat E.F. Oreshkin, M.A. Borisova, N.A. Tcherkashina and U.V. Martynov.....	468

MICROBIOLOGY

Shelf-Stable Oriental Meat Products L. Leistner.....	470
Long-Term Storage of Chilled Fresh Meats A.F. Egan and B.J. Shay.....	476
Storage Life of Chilled Lamb Carcasses Either Produced in Saudi Arabia or Imported by Air from New Zealand R.G. Bell, Mohammed Al Meshari and Mohammed Al-Mutairy.....	482
The Effect of Initial Gas to Meat Ratio on the Spoilage Flora of Beef Packaged Under CO₂ C.O. Gill and N. Penny.....	485
Treatment of Pork with Organic Acids prior to Vacuum-Packaging - A Comparison of the Effectiveness of Lactic and Acetic Acids B.J. Shay, A.F. Egan, Dianne Miller and Tian Ai-Jai.....	489
A Process for Central Prepackaging of Fresh Meat George J. Cocoma and Chin S. Cheng.....	492
Lindane and DDT Degradation as Influenced by some Lactobacillus Strains Vera Visacki, Miroslav Peric, Jovan Raseta, Aurelija Spiric, Olivera Buncic.....	501
The Microbiological Status of Meat from some typical New Zealand Meat Slaughtering and Processing Lines G.M. Keeley.....	504
Meat Freshness Assessment Using a Biosensor Array E. Kress-Rogers, J.E. Sollars, E.J. D'Costa, J.M. Wood, A.P.F. Turner, M.K. Knight.....	508
The Bacterial Flora and Keepability of Gas-Packed Meat Balls E. Petaja and E. Puolanne.....	511
Shelf Life of Sliced Cured Meat Products L. Bogh-Sorensen and S. Qvist.....	514
Effects of Ultra Violet Light Exposure to the Aerobic Bacterial Loads of Bali Beef I.B. Arka.....	516
Growth of Listeria monocytogenes on Vacuum Packaged Beef F.H. Grau and P.B. Vanderline.....	518

The Isolation of Listeria Spp. in Meat and Meat Products C. Breer and G. Breer.....	520
Effect of Cinnamon and Clove Oils on Food Poisoning and Spoilage Bacteria In Vitro and Poultry Meat Product Talaat El-Khateib, S.H. Ahmed and M.A. Makboul.....	522
The Incidence of Listeria monocytogenes in Meat and Meat Products-Factors Affecting Distribution P.D. Lowry and I. Tiong.....	528
A Computer Program for Evaluating the Hygienic Efficiency of Meat Processing Procedures from Product Temperature History Data C.O. Gill, D.M. Phillips, M.P.F. Loeffen and C. Bishop.....	531
A Quantitative Method of Determining the Hygienic Efficiency of Meat Thawing Processes P.D. Lowry, C.O. Gill and Q.T. Pham.....	533
The Prediction of Food-Product Shelf-Life H. Korkeala and T. Alanko.....	537
Effects of High Temperature Conditioning and Air Trapping on the Keepability of Hot and Cold Boned, Vacuum-Packaged, Beef Longissimus Riette L.J.M. Van Laack and Frans J.M. Smulders.....	539
Preservation of the Nan-An Pressed Salted Duck with Micro-Wave Irradiation Zhou Yongchang and Ding Qingbo.....	542
The Processing Method of the Nan-An Pressed Salted Duck Zhou Yongchang and Ding Qingbo.....	545
The Use of Modified Atmosphere for Meat Packaging M.J. Ansoborio.....	548
Identification of Atypical Streptobacteria Isolated from Australian Vacuum-Packaged Beef O. Kandler, B.J. Shay and A.F. Egan.....	550
Contribution for the Knowledge of the Microbiological Characteristics of Manufactured Turkey Meat Products Ilda M.V. Crus, M. Palminha and R. Soares de Melo.....	552
Determination of Catalase and Soluble Pigments in Heat-Treated Pork as Sanitary Indicators Face to the African Swine Fever Virus R.S. Melo, A.S. Carvalho, C. Santos, J. Ribeiro and L.C. Roseiro.....	554
Lipolytic Activity of Brochothrix thermosphacta and Lactobacillus curvatus M. Papon and R. Talon.....	558

PIGMEAT QUALITY

Effects of Carcass Fatness and Sex on the Composition and Quality of Pigmeat J.D. Wood, M. Enser and C.B. Moncrieff.....	562
The Effect of Selection for Lean Growth on Meat Quality in Pigs C.P. McPhee.....	565
The Effect of Breed on Meat Quality Characteristics in Pigs P.A. Barton-Gade.....	568
Influence of the Duroc Breed on Pigmeat Quality J.D. Wood and M. Bichard.....	571
Preliminary Observations of Pig Meat Quality Problems in a Victorian Abattoir R.D. Warner and G.A. Eldridge.....	573
Studies in Post-Mortem Metabolism of PSE-Prone Pork Muscles F. Schwagele and K.O. Honikel.....	575
Fibre Optic Probe Measurements in Landrace Pigs of Different Halothane Phenotypes G. Eikelenboom and L. Nanni Costa.....	578
Muscle Metabolism and Glycogen Depletion within Fibretypes at Slaughter in Pigs with Different Halothane Genotypes. Relation to Meat Quality Properties B. Essen-Gustavsson, K. Karlstrom and K. Lundstrom.....	581
Pale Pig Meat - Relative Influence of PSE and Low Pigment Content K. Lundstrom, P. Barton-Gade, J. Rud Andersen and I. Hansson.....	584
An Attempt to Relate Meat Quality of Pork (M. Longissimus dorsi) to Meat Structure G. Larsson and E. Tornberg.....	588
Technological Aspects in Porcine Meat Quality E. Puolanne.....	592

ucts ...520	Fatty Acid Composition of Different Pork Tissues Lipids Veselinka Djordjevic, M. Bastic, G. Remberg and J. Jovanovic ...595
g uct ...522	Genetic Parameters of Fatty Acids of Pork Fat D. Schworer, P. Morel, A. Prabucki and A. Rebsamen598
...528	Dose Response Effects of Native and Recombinant Porcine Somatotropin (pST) on Growth Performance, Composition of Gain and Pork Quality D.H. Beermann, R.D. Boyd, G. Armbruster, A.F. DeNeergard, K. Roneker, T.D. Bartley and K.D. Fagin601
...531	Growth, Carcass and Sensory Characteristics for Pigs Injected Daily with Natural Porcine Somatotropin P.J. Bechtel, R.A. Easter, F.K. McKeith, J. Novakofski, D.G. McLaren and G.L. Grebner603
...533	Qualitative Properties and Carcass Composition of Pigs fed Ractopamine Robert A. Merkel, Rick L. Burkett, Robert J. Burnett, Abdalla S. Babiker, Aubrey L. Schroeder and Werner G. Bergen.....605
...537	Development of an Enzyme-Linked Immunosorbent Assay (Elisa Test) for Detecting Boar Odor in Pork A. Asghar, M.M. Abouzieed, A.M. Pearson, J.I. Gray, J.J. Pestka and E.R. Miller607
...542	Carcass Composition, Muscle Quality, Odor Incidence and Utilization of Boar Meat M.D. Judge, E.W. Mills, M.W. Orcutt, I.C. Peng, J.C. Forrest, M.A. Diekman, B.G. Harmon, R.S. Lin and L.L. Nicholls.....610
...545	Carcass Yield, Meat Quality and Functional Properties of Pork as Affected by Hot Processing Procedures Frans J.M. Smulders and Riette L.J.M. Van Laack.....613
...548	Metabolic Rate of Porcine M. Gluteus medius as Influenced by Hanging Position of Carcass prior to Bleeding M. Vada-Kovacs and E. Czibula616
...550	Quality Characteristics of Chilled and Warmed Excised Porcine Longissimus Obtained from Pigs Stunned by Captive-Bolt T.S. Yang, C.Y. Liu and H.C. Chang.....619
...552	Effect of Temperature Conditioning on Toughness in Hot Boned Pork Loins with High or Low Initial pH A.J. Moller and T. Vestergaard.....621
...554	Effect of Lean Yield Grading System on Pork Palatability E.A. Gullett, K. Schumacher and W.R. Osborne.....624

ENGINEERING TECHNOLOGY

...562	New Technology in Slaughter and Processing Sheep G.R. Longdill627
...565	New Technology in Slaughter and Processing: Pigs Peter Hok631
Pigs ...568	Classification of Bovine Carcasses by Means of Video Image Analysis and Reflectance Probe Measurements S.E. Sorensen, S. Klastrup and F. Petersen.....635
